

COURSE

Hands on Practical Oral Surgery for the GDP

WHERE/WHEN

Thursday 4th November 2010, 08.30 – 17.00 (Registration 08.00 – 08.30)
David Dunn Suite, Addenbrooke's Hospital, Cambridge

This is an exciting new course for the GDP to practice their Oral Surgery skills

DENTAL MEETING

Speaker: **Mr Julian Fraser, Mr David Adlam, Mr Malcolm Cameron**
Consultants in Oral and Maxillofacial Surgery, Addenbrooke's Hospital, Cambridge

The Aims:

- To demonstrate minor oral surgery techniques both theoretically and in practice
- To break down a common procedure into its constituent parts
- To enable candidates to undertake these constituent parts
- To inform of some of the common pitfalls

The Objectives

At the end of the course a candidate should be able to:

- Assess a tooth for surgical extraction
- Understand the process and the steps involved in that process
- Undertake all of the steps in the process in a competent manner
- To be aware of some of the common complications and how to deal with them

Course Summary

Minor Oral Surgery is a practical skill that is difficult to acquire through theoretical learning alone. This course is designed to give delegates the opportunity to acquire and practice these skills under the supervision of experienced Oral Surgeons. The course is a combination of short theoretical lectures and hands on practical sessions utilising pigs heads to practice the skills demonstrated. All participants should have ample time during the practical sessions to undertake the procedures with individual teaching from faculty members.

Please bring own protective eyewear Numbers limited to 12 Delegates

TO ATTEND PLEASE BOOK AT https://secure.intrepidonline.co.uk/CourseManager/EOE/sys_Pages/Common/Login.aspx
