Intended Learning Outcomes

At the conclusion of this session participants will be able to:

- Understand the relationship between dementia and delirium
- Implement screening for cognitive impairment
- Improve the care of dementia sufferers in their own homes and in care homes
- Minimise risk of developing delirium in care home residents and improve the management of delirium in the community and in care homes

If you would like to attend, please complete and return the reply slip below. Unless you hear further, a place will have been reserved for you. If you require a receipt or map, please email: hh334@medschl.cam.ac.uk
